
Product Name : Vaseline Oil

Vaseline Oil for microbiological use.

CONTENT OF THE PACKAGES

Vaseline Oil 2 x 50ml
1 Instruction sheet

DESCRIPTION

Vaseline Oil is a material used to keep an anaerobic environment for the microbial growth and for the performance of some biochemical tests suitable for microbial identification. Vaseline Oil, due to its physical-chemical properties, prevents environmental oxygen from coming into contact with medium and microorganism, assuring therefore the keeping of an anaerobiosis level sufficient to the aim the product is set for.

USE

For the product use and interpretation of results refer to the instruction sheet of the relevant identification systems and to the laboratory procedures.

QUALITY CONTROL

Appearance: limpid colorless solution.

PRECAUTIONS

The product, Vaseline Oil, is not classified as hazardous under current legislation, neither does it contain noxious substances in concentrations $\geq 1\%$. Vaseline Oil is a disposable device to be used only for diagnostic use in vitro. It is intended for use in a professional environment and must be used in the laboratory by properly trained personnel, using approved asepsis and safety methods for handling pathogenic agents.

STORAGE

Store Vaseline Oil at 10-25 °C in its original package. In such conditions the product is valid until the expiry date shown on the label. Do not use them beyond that date. Dispose of them if they show signs of deterioration.

DISPOSAL OF USED MATERIAL

After the use, Vaseline Oil and the material that has come into contact with the sample must be decontaminated and disposed of in accordance with the laboratory procedures for the decontamination and disposal of potentially infected material.

Product Name : Vaseline Oil
